

NoBook & Uma Restaurants

Location: Barcelona, Spain

Year: 2016

Program: Restaurant

Striking and innovative restaurant, with industrial aesthetics and custom-made furniture designed specifically for the unique characteristics of spaces with recycled materials. The kitchen has been designed totally open with a total control of main space, decorated in a shocking orange tone. At the cocktail bar the use of metallic profiles creates an industrial forest.

Adjacent to the local Nobook, there is the UMA. More intimate restaurant, soft colors that wants to transport the client in the warmth of a flat in the Eixample of Barcelona. The kitchen is open with pure lines and white tones that exalt the elegance of the space.
