

# Hilton Garden Inn

**Location:** Madinah, The Kingdom of Saudi Arabia

**Year:** N/A

**Status:** Design

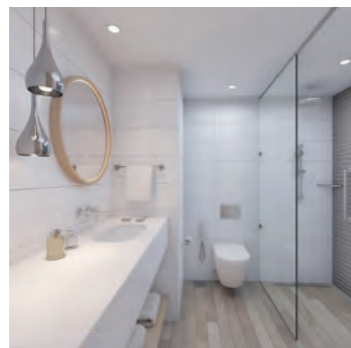

**Program:** 4\* Hotel

The main lobby engages with lines and shadows that are projected by the interior elements such as wood battens. The projection of the shadows creates a unique experience for the users of the space. The style has a modern twist that combines natural materials and colours inspired by natural stones. The furniture is fully upholstered with different pastel colors. The general ambiance evokes the feeling of home and comfort.

On the guestrooms accent wall is an upholstered headboard which has a bright colour fabric and diagonal lines, as the project's inspirational theme. However the general hues of the room are neutral colours to maintain a calm ambiance. The room is ornamented by mirrors and artwork distributed among the walls of the room. The bathroom has a wavy wall cladding imitating the water ripples.

Lobby

Bathroom

The suite is more elegant but warm and welcoming. The bedroom has a leather vinyl finish. The closets are with glass doors. The furniture has pastel colours to add bloom to the environment. Artworks and wooden pendant lamps decorate the space in the dining and living areas. The kitchenette has clean cabinets with chrome accents as backslash wall.
