

Meraas Al Badaa Residential

Location: Dubai, United Arab Emirates

Year: 2016

Status: Completed

Program: Residential Development

Al Badaa is a residential district located in Western Dubai, close to the localities of Jumeirah, Al Hudaiba and Al Satwa. Meraas Al Badaa Residential building offers a modern lifestyle for its residents in line with the high quality of living enjoyed in the Arab city. The design concept seeks to create a luxurious atmosphere supported by crafty materials like stone and wood, clean, contemporary lines and by using a palette formed of neutral colors which fill the apartments with light.

The combination of white hues on walls and flooring, together with the dark oak wood of the bathroom furniture and wardrobes, achieve an elegant mood, allowing residents to customize their properties according to their taste. The living room and kitchen follow pure, straight lines, with the accent given to wooden panelling in the pantry area. Floor-to-ceiling windows with balconies allow the access to plenty of sunlight.

The reception of the building is the first contact for residents and visitors. It manages to establish the atmosphere which follows the juxtaposition of white, textured stone and dark wood. A seating area with sculptural lights and artworks adds interest to an otherwise transitional space. The gym area enjoys great views of Dubai thanks to the wide windows and side mirrors which reflect the landscape, as well as state-of-the-art equipment for residents to stay fit.
