

Private Apartment

Location: Paris, France

Year: 2019

Status: Completed

Program: Residential Development

A functional layout, clean and light surfaces and plenty of closet space hiding appliances. A colour palette in white, light gray and light turquoise. Strong color accents: saturated gray, yellow and petrol blue. A warm yet sober environment. A darker wall to highlight the chimney, while the opposite wall, sets a backdrop for the desk. Painted in a very faint gray, it reflects light coming from the window and showcases art in restored niches.

The main suite is a place for contrasts. The sleeping area has a subdued, neutral palette with softer, more feminine textures and colors, applied in accent elements that can be easily changed for a renovated, seasonal look. Paneled walls provide the dressing room with a soft, very clean and orderly aspect, hiding storage space, and natural lit toilet cubicle.

Living room

Bathroom

The Guest Suite is a self contained and private haven, with a simplified elegance and textured materials. The color palette is subdued, with a touch of more vivid colors, applied on accent furniture pieces. The walk-in closet can house a minibar and sink for beverage preparations. Entertainment and media equipment are included.
